## Process Automation

### Note:

1. DIAView SCADA can be downloaded on Delta's website for free.
2. DIAView can work 2 hours continuously. After that, SCADA will be automatically disconnected. If you do not have the above mentioned dongle tool, you will need to connect the communication again.

### Minimum System requirements:

Configuration Items	Minimum System Requirements
CPU	2.0GHz or above
Memory	2GB or above
Hard disk	20GB or above
Display	1024 x 768 resolution or above
Operating System	Windows XP SP3, Windows 7 Professional/Ultimate Edition, Windows 8 Professional/Ultimate Edition 32/64 bit
	Language: Simplified Chinese, Traditional Chinese, English
System Privilege	Windows users must have administrator privileges
Execution Platform	Installation of Microsoft .NET Framework4.0 or above is required

※ **Note** : Users must prevent the computer system from entering standby or hibernation modes while the DIAView configuration software execution environment is executing in order to avoid "Unrecognized Encryption -dongle" anomalies from occurring.
